

Bimonthly Solicitation Questions and Responses Report

Bimonthly Solicitation Title : September 2018

Bimonthly Solicitation Month & Year : September 2018

Projects

Solicitation ID	Project ID	Project Description
SE-01	1030-08-08	This is a bridge rehabilitation project on IH 41 in Kenosha County. A total of twelve (12) bridges will receive thin polymer overlays. Staging of bridge work will be required. One (1) box culvert will also receive miscellaneous repairs.

Questions and Responses

- Q1: Does this project only entail structures design assistance or are there roadway design elements such as plans production, environmental documentation, preparation of the DSR and TMP, and staging plans also included?
- R1: Consultant work will consist of only structure design assistance (structure plans, specifications, and estimates). The remainder of the work will be completed by the department.

Projects

Solicitation ID	Project ID	Project Description
SW-03	1009-17-05	Provide utility coordination services for the Southwest Region.
SW-03	1009-17-05	Provide utility coordination services for the Southwest Region.

Questions and Responses

- Q1: Is this anticipated to involve just one person or potentially multiple staff?
- R1: The firm should provide one point of contact to WisDOT. After WisDOT assigns a project to the firm, the point of contact may perform the work or assign the work to other qualified staff in consultation with WisDOT. The firm should be able to provide up to 40 hours of staff time per week and it is not anticipated that total staff time would exceed this amount within a week. The firm may propose efficiencies to complete the work which may include using staff of different experience levels.

Bimonthly Solicitation Questions and Responses Report

Q2: Is the staff position a full time position over the span of the contract?
Is the staff position required to be located in the SW Region office?

R2: This is not a guaranteed full-time position over the span of the contract. The consultant will be assigned projects to work on as needed. The workload may be 40 hours per week. This is not a staff position located in a Southwest Region office. The consultant will work at their own consultant office but be required to visit the Region Office for meetings.

Projects

Solicitation ID	Project ID	Project Description
SW-04	5573-05-00	Replace the bridge.

Questions and Responses

Q1: Will the WisDOT be providing any design services with this project or will the selected consultant be responsible for the final PS&E and remaining deliverables?

R1: DOT will be providing in-house roadway design, beam guard and Concrete Approach Slabs services for this project. Coordination between the structure designer and Department shall be necessary throughout the design portion of the project. The CONSULTANT shall provide the DEPARTMENT with a copy of the structure special provisions, to be inserted by the DEPARTMENT into the PROJECT special provisions.
