SE-02	1000-00-72	The Southeast Region requires additional resources to complete design projects in our Project Development Section.

### Questions and Responses

Q1: Could an 80% Full Time engineer (FTE) be used, or 32 hours/week, or should only 100% FTEs be considered?

R1: See Project Description.

### Projects

Solicitation ID	Project ID	Project Description
SE-03	1000-00-72	The Southeast Region requires additional resources to complete design projects in our Project Development Section.

### Questions and Responses

## Bimonthly Solicitation Questions and Responses Report

Q1: Could an 80% Full Time Engineer (FTE) be used, or 32 hours/week, or should only 100% FTEs be considered?

R1: See Project Description.

### Projects

Solicitation ID	Project ID	Project Description
SE-05	3742-00-07	Onsite signal support.

### Questions and Responses

Q1: Does being selected for this project eliminate the consultant from receiving work orders from the region?

R1: No

### Projects

Solicitation ID	Project ID	Project Description
SE-06	1000-00-58	On-site electrical operations

### Questions and Responses

## Bimonthly Solicitation Questions and Responses Report

Q1: SE06 requires the consultant provide one part-time engineer for 16-24 hours per week between WisDOT's SE Region office and the consultant's home office. How many hours per week are expected within the Region's office?

R1: TBD

### Projects

Solicitation ID	Project ID	Project Description
SW-01	1390-01-06	Repair the concrete. Mill and overlay the asphalt. Update curb ramps as needed to meet ADA requirements. Investigate need for real estate acquisition at curb ramps.
SW-01	1390-06-00	Replace the asphaltic pavement on the 2-lane section. Treat the 4-lane section under USH 151 with a mill and overlay. Replace guardrail terminals as needed. No structure work included in project. ADV PS&E Date is 5/1/2023.

### Questions and Responses

Q1: The Consultant Requirements section lists hydraulic analysis, modeling, and structure sizing. Is structure design or some type of drainage analysis required? There is nothing identified in the Project Description or Schedule for Deliverables for this work.

R1: Hydraulic analysis and sizing may be required to replace several culverts. --This has been added to the Project Description.

### Projects

Solicitation ID	Project ID	Project Description
SW-02	5540-02-01	Treat the pavement with a mill and overlay. Update curb ramps as needed to meet ADA requirements.

### Questions and Responses

## Bimonthly Solicitation Questions and Responses Report

Q1: Can you confirm WisDOT is performing the survey and that the survey information is adequate for the curb ramp upgrades?

R1: Consultant to perform necessary survey. --This has been added to the Project Description.

### Projects

Solicitation ID	Project ID	Project Description
SW-03	1009-17-02	PROJECT NEEDED TO HIRE CONSULTANT FOR PDS COORDINATION - JOURNAL VOUCHER CONTRACT.
